SILVER SERIES COUPLINGS

The Silver Series line of couplings and pintle hitches boast beefed-up latch capacities that increased wear-resistance while eliminating weight. Topology optimization, finite element analysis, casting flow simulations, and solidification studies were used by Premier engineers to design these couplings. Thanks to the work of Premier's engineering team, the Silver Series couplings and pintle hitches are harder than their predecessors, correlating to a significant reduction in wear.

Model 1200 Part # 10005664

Maximum Gross Trailer Weight: 100,000 lbs (45,359)
Maximum Tongue Weight: 20,000 lbs (9,072 kg)
Ultimate Latch Capacity: 60,000 lbs (27,216 kg)

Model 1300 Part # 10005668

Maximum Gross Trailer Weight: 110,000 lbs (49,895 kg)
Maximum Tongue Weight: 20,000 lbs (9,072 kg)
Ultimate Latch Capacity: 60,000 lbs (27,216 kg)

Model 1400 Part # 10005672

Maximum Gross Trailer Weight: 110,000 lbs (49,895 kg)
Maximum Tongue Weight: 20,000 lbs (9,072 kg)
Ultimate Latch Capacity: 60,000 lbs (27,216 kg)

Model 1400H Part # 10005676

Maximum Gross Trailer Weight: 110,000 lbs (49,895 kg)
Maximum Tongue Weight: 20,000 lbs (9,072 kg)
Ultimate Latch Capacity: 60,000 lbs (27,216 kg)
