

Driver's-Side-Only FLOOR MATS

MSRP \$89

- Kit includes the Driver's-Side-Only Mat & HD Securement Kit
- Minimum order qty of 50 pieces (can mix and match)
- Bulk packaged and shipped on a pallet

Not all fleets have passengers. Heck, some don't even have passenger seats! So why have a full set of floor mats when the driver's side is the only real source of dirt, debris and floor damage? That's why Minimizer introduced a fleet-specific program for Driver's-Side-Only Floor Mats.

These mats are custom molded tray-style mats that catch all the debris and mess. The material doesn't wear like normal floor mats so they come with a lifetime warranty. Additionally, we know fleets are always very safety conscious so all of the drivers-side-only mats ship with our exclusive Heavy Duty Securement Kit which makes sure the mat is firmly secured to the cab floor but still easily removable for cleaning. The Floor Mats are shipped in bulk, stacked on a pallet with a minimum order qty of 50 pieces.

Pricing is extremely competitive allowing fleets to comfortably budget for the addition of this mat which ultimately saves money when considering inevitable floor damage seen without the use of a Minimizer custom molded mat.

Eliminate floor damage, keep drivers happy, and save money. It sounds too good to be true, but it's not.

Driver's-Side-Only Floor Mats are available now exclusively through Minimizer distributors nationwide.
