Super Single Poly Fenders

MINIMIZER PRODUCTS:

SUPER SINGLE FENDERS

MINIMIZER™ SUPER SINGLE FENDERS

As the trucking industry continues to focus on efficiency; wide-base tires have proven to be one area to save on weight and in turn lower fuel expenses. Minimzer Super Single Fenders compliment the wide-base tire with a slim design that fits perfectly to cut weight and wind drag.

With an outstanding reputation of quality, durability, and style, our fenders will enhance your truck's appearance and lifespan. Minimzer fenders never rust because they are a proprietary Minimzer material. The color is molded throughout so chips, scuffs and scratches can't be seen. The fender never needs to be painted and never fades. The Minimzer fender itself should never need maintenance other than the occasional wash using any all-purpose cleaner.

NEVER NEEDS PAINT: Color is molded throughout, so chips, scuffs and scratches can't be seen

NEVER RUSTS: Material is 100% polyethylene

NEVER FADES: UV inhibitors are built into the polyethylene material

NEVER STRESS CRACKS: The unique material is not affected by road conditions & vibrations

NEVER NEEDS POLISHING: Simply clean with soap and rinse with water

LIKE ALL MINIMIZER POLY FENDERS, SUPER SINGLE FENDERS ARE GUARANTEED FOR LIFE!
