BUG DEFLECTORS

A close-up, low-angle shot of the front of a blue truck at night. The truck's chrome grille is prominent, with vertical slats. The headlights are illuminated, casting a warm glow. The background is dark, suggesting a night setting. The overall tone is professional and highlights the truck's features.

SUNVISORS

A blue sunvisor is mounted on the dashboard of a truck. The sunvisor is illuminated from within by seven small, bright yellow LED lights arranged in a horizontal line. The truck's interior, including the steering wheel and side mirror, is visible in the background. The sunvisor is made of a reflective material, likely stainless steel, and is shown in a dark environment, possibly at night or in a dimly lit garage.
