AIR CLEANER ACCESSORIES

MD0229 allows the front and rear air cleaner light bar to be connected to the same power source. The wiring harness is sold individually.

Air cleaner trim panels are designed to fill space between air cleaner and hood. Plain, no light cutouts. There are 4 pieces included in this set, two bars with 2, 2" round holes for access to bolts and 2 covers that attach using 3M two-sided tape to cover the front of the bar.

Part Number	Description

2" ROUND STARBURST LED

Attaches to the brackets between the hood and the air cleaner on both sides. Includes wiring harness with Packard plugs. If can size is not specified in the description, the light bars will work on both 13" or 15" cans. Sold in pairs. Length refers to the distance between the top of the flange to the bottom of the can. Mount refers to the distance between the bottom of the can and the center of the first strap. Some Front Air Cleaner Light Bars will not go all the way to the bottom of the can because of hood latch interferences.
