

# MORE CHOICE. BROADER COVERAGE. TRUSTED STAINLESS STEEL.

## WHAT'S HAPPENING

We've updated how stainless steel accessories are positioned to make it easier for dealers, sales teams, and customers to choose the right option for their needs:

- Premium stainless steel (304) now sits under Kenworth Accessories and Peterbilt Genuine Accessories for select products.
- Value-driven stainless steel (430) is now offered under the TRP nameplate for select parts.
- Some TRP products (e.g., cab skirts, sleeper skirts) will continue to be offered in 304 stainless steel under the TRP banner.

This change creates clearly defined premium and value options while expanding overall coverage and choice.

## WHAT'S NOT CHANGING

- Not every part is affected — only select products have been realigned.
- Many TRP stainless steel accessories (e.g., cab and sleeper skirts) remain offered in 304 stainless under the TRP brand.
- Quality and performance expectations remain consistent across both offerings.

## HOW TO USE WITH CUSTOMERS

- Premium choice → Recommend 304 through Kenworth/Peterbilt for customers seeking top-tier material and durability.
- Value choice → Recommend TRP 430 for customers who want dependable performance and expanded application coverage.

GENUINE ACCESSORIES

## ACCESSORIES

### 304 STAINLESS STEEL

Premium, OEM-aligned accessories under Kenworth Accessories and Peterbilt Genuine Accessories.

#### WHY IT MATTERS:

- Highest quality material — superior corrosion resistance
- Will never rust or corrode
- Bright mirror finish with long-lasting appearance
- Superior strength for demanding conditions
- Best warranty coverage in the lineup

A great choice for customers focused on long-term value and appearance

### 430 STAINLESS STEEL

Cost-effective option under the TRP nameplate designed for broad applicability

#### BENEFITS:

- Cost-effective solution for budget-conscious buyers
- Rust & corrosion resistant for daily performance
- Mirror finish with durable performance
- Standard warranty provided
- Expanded All-Makes availability – Supports Western Star, Freightliner, and International

This gives dealers a broader parts offering to meet the needs of mixed fleets and non-OEM platforms.
